Join us on a journey through time

Time
Machine

Big Data of the Past

Time
Machine

*Let´s build
a Time Machine!*

It should be possible ...

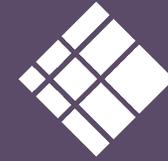

Time
Machine

- To **move through time** as easily as we move through space
- To **simulate** possible futures / possible pasts
- To **integrate** historical data into people's **everyday lives**

Time Machine: Challenges

- **Digital Humanities** invent **new tools** to **travel** not only in space, but also **through time**.
- Can we build “**Google maps**” of the past?
- Can we build “**Facebooks**” of the past?
- Can we build **time machines**?

What is needed?

- New technologies for a **scanning infrastructure** able to **digitize massive amounts** of objects
- Fundamental **breakthroughs** in **artificial intelligence, robotics** and **ICT**
- Unique **alliance** between the **best European players** in Humanities, sciences, technologies and culture

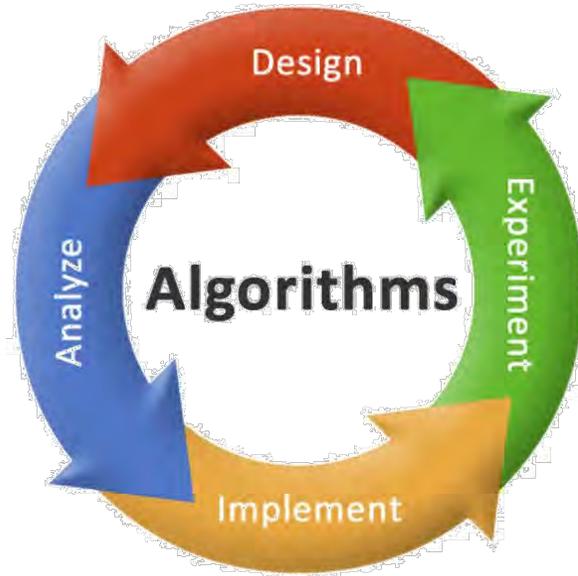

Technological Background of a Time Machine!

Time Machine & ICT

Time
Machine

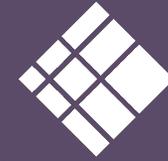

Smart algorithms that extract information and create knowledge from noisy, heterogeneous and complex data at massive scale like:

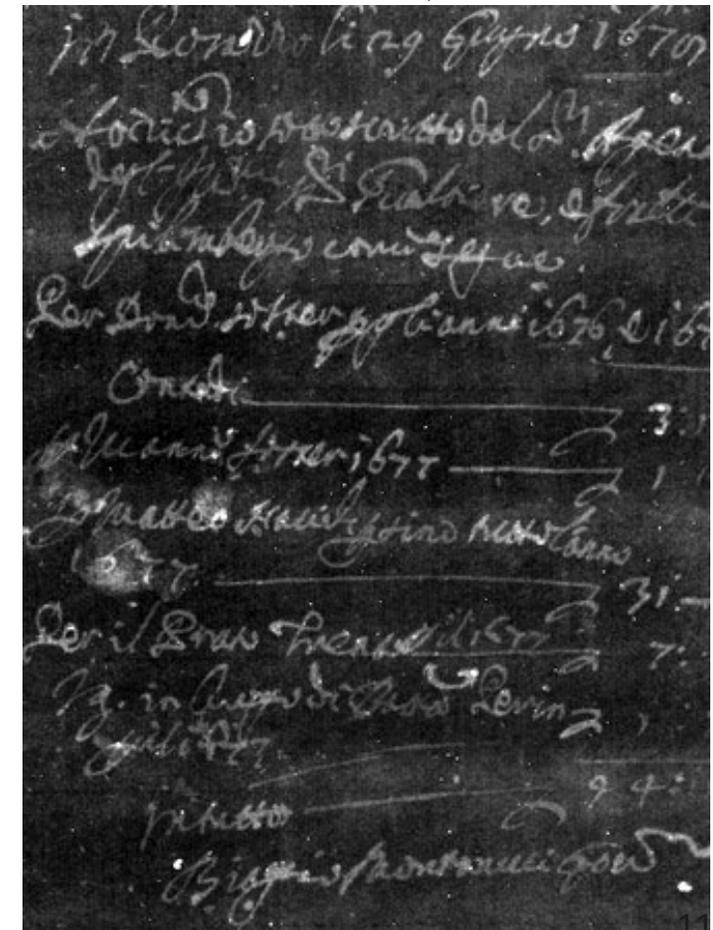

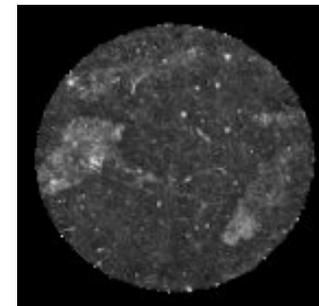

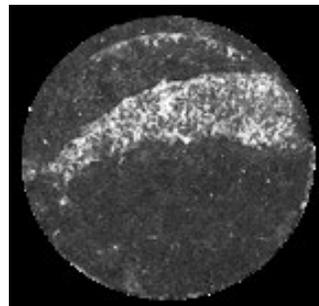

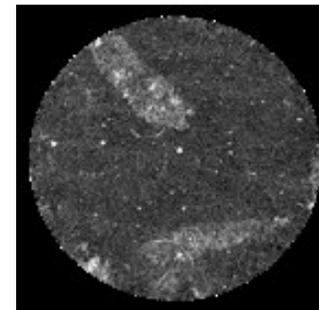

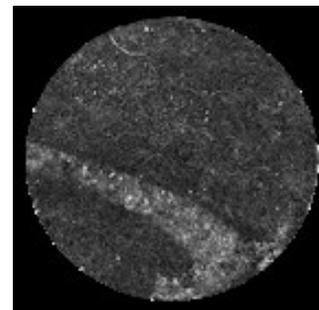

- Medieval manuscripts,
- Collections of **objects** and cultural **artefacts**,
- Recent **smartphone** and **satellite** images,
- **Multimodal content** from websites and platforms.

Example: 3-D Computed Tomography

Time
Machine

Example: Content Extraction

Time
Machine

Automatic
transcription

READ / Transcribus:

- **R**ecognition and
- **E**nrichment of
- **A**rchival
- **D**ocuments

The screenshot displays a web browser window with the URL <https://read.transkribus.eu>. The page features the large blue logo "READ" and the subtitle "Recognition and Enrichment of Archival Documents". A navigation menu includes links for Home, News, Mission, Network, Research, Services, Publications, and Contact. The main content area shows a snippet of a handwritten document in German, with the text: "ist vom K\u00f6nig beauftragt worden. Auf dem 1900...". The browser's address bar and various toolbars are visible at the top, and the Windows taskbar is at the bottom.

Battista Nani

Time Machine is ...

Time
Machine

First of all ...

... a strong vision for the
technological future of cultural
heritage!

History

Time
Machine

- 2012: Starting point Venice Time Machine (Frederic Kaplan)
- 2017: Expanding project to Europe in general
- 2017: Request for consortium members (summer)
- 2018: “F(uture and) E(merging) T(echnologies) Flagships” - Program by EU (funding € 1 bn. per project / 10 years)
 - January – May 2018: **Preproposal** (selected out of 33)
 - May – November 2018: **2nd Preproposal** (selected out of 17 as **best project**)
- 2019: Coordination and Support Action (CSA)- project: final proposal with detailed roadmaps of activity (funding € 1 mn.)
- 2020: EU - FET Flagship Program canceled

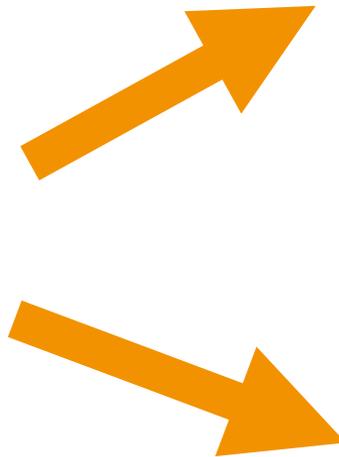

Organizational Structure 2019

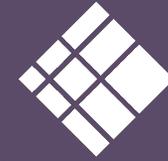

Time
Machine

1.3.2019 - 28.2.2020
CSA-project (Funding: 1 mn.)

Two levels

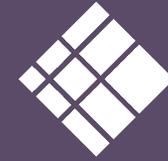

Sustainable organization:
Time Machine Organization

Time
Machine

Time Machine Organization

Time Machine Organisation (TMO)

Time
Machine

- Setting up TMO as a formal organization was crucial to **secure continuity** after the Time Machine **CSA** ended on 28th February 2020.
- **Primary aims:**
 - Secure **proper funding** after the CSA project ends.
 - **Personnel continuity** and a **smooth transition process** are absolutely vital for the future of Time Machine

Time
Machine

1950 1960 1970 1980 1990 2000 2010

2020 2030 2040 2050 2060 2070 2080 2090

Who is part of the organization?

A unique alliance of leading European institutions

Time Machine is conformed by ...

- 600+ consortium members from 45 countries
- 226 of Europe's top academic and research institutions
- 123 Private sector partners from SMEs to international companies

- 127 Internationally-acclaimed **Galleries, Libraries, Archives and Museums**
- 22 European institution bodies
- 67 Civil society and industry associations

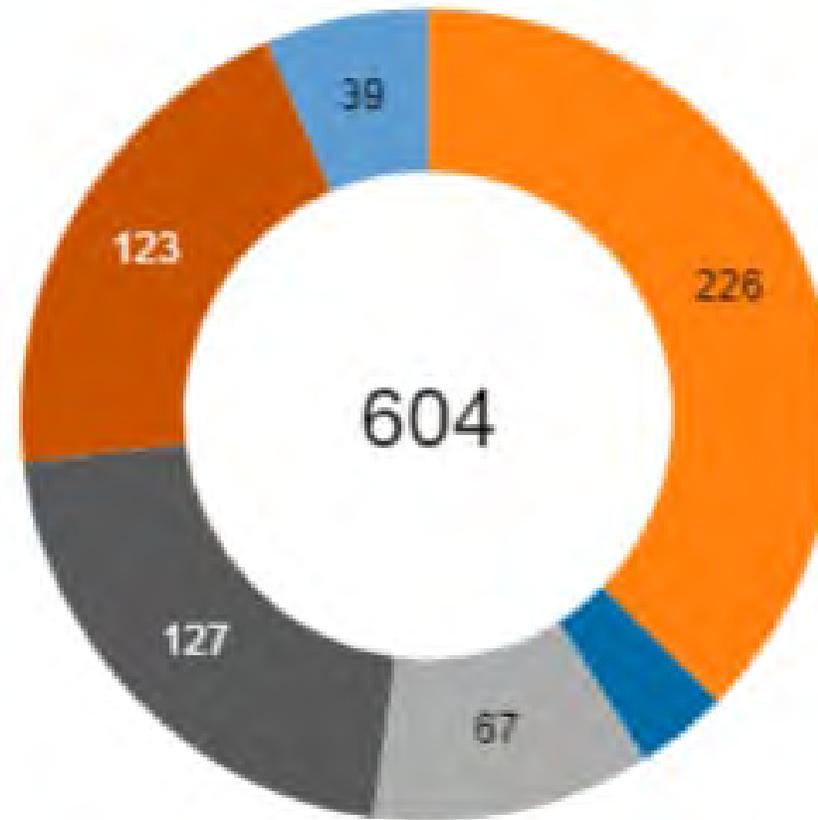

The Time Machine Consortium

Time
Machine

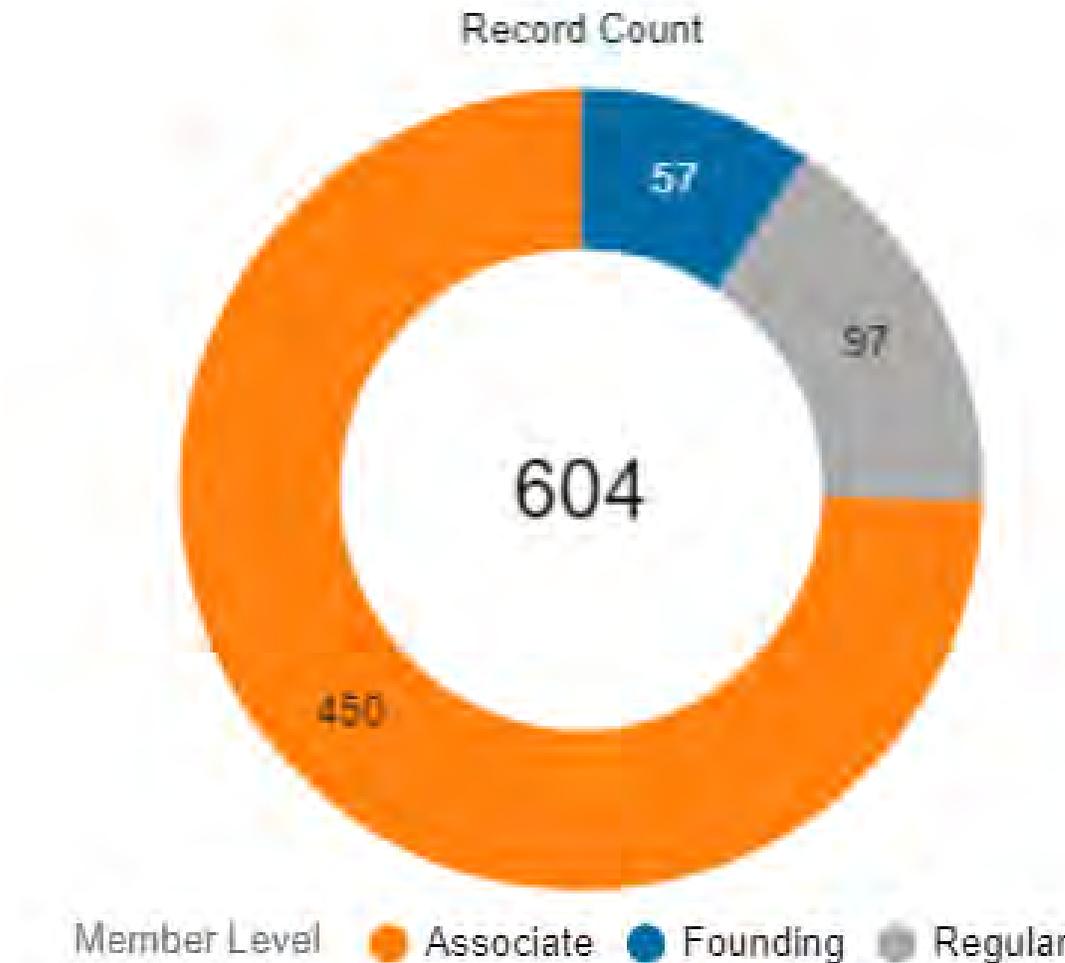

- Institution / Type

- Civil Society Organisation
- GLAM
- Other
- Private or Industrial Sector
- Academic and Research Institution
- Associated Programme or Network

The Time Machine Consortium

- Members

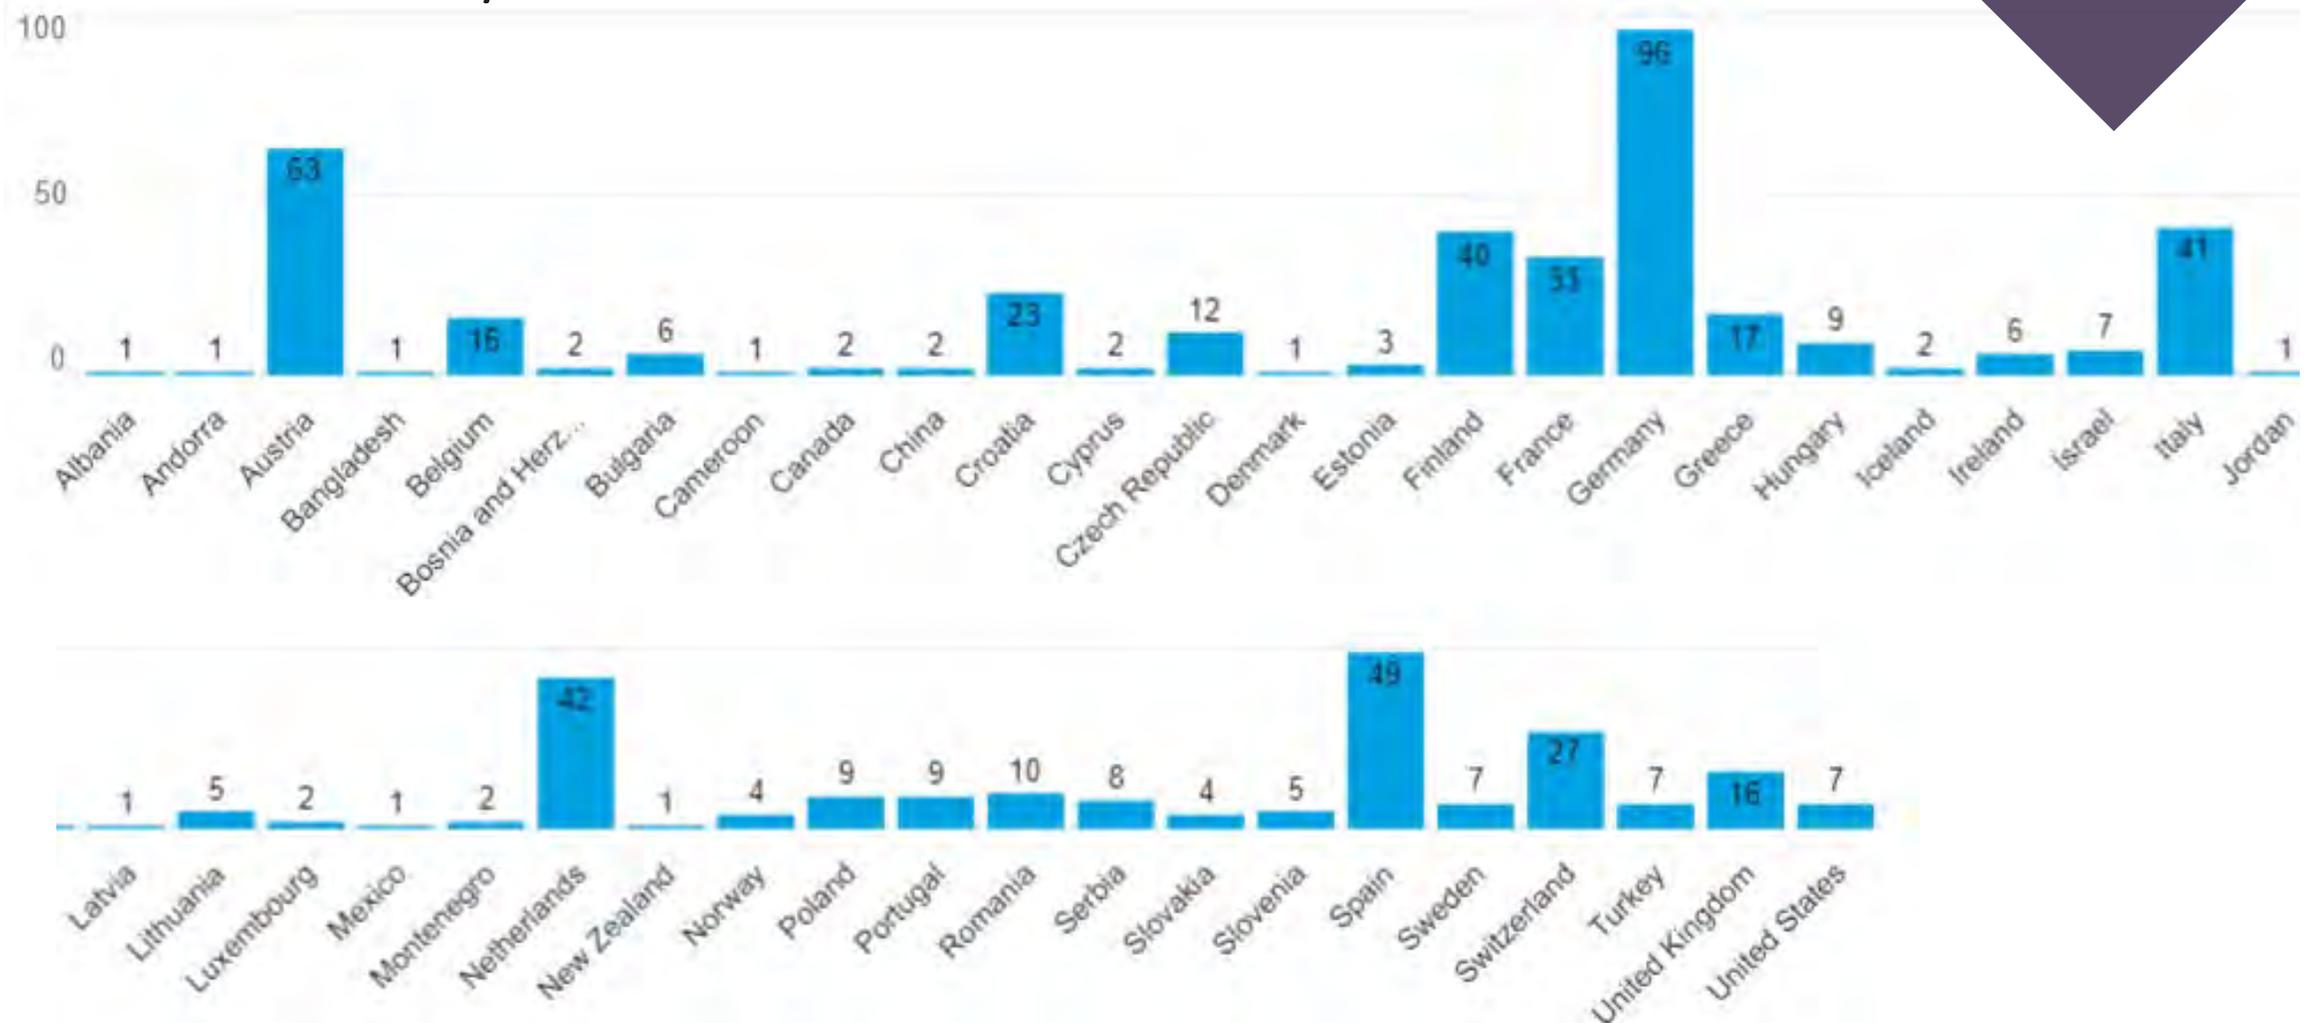

The Time Machine Consortium

- Institution / Countries

Time
Machine

Legal Background

TMO: Legal Background

- Legal form: **Association** under Austrian law
- **Non-profit** organization
- Registration in Austrian Central Associations' Register
- English version = translation of original German version
- **Consultation process** 12 August – 2 September 2020
(67 responses)

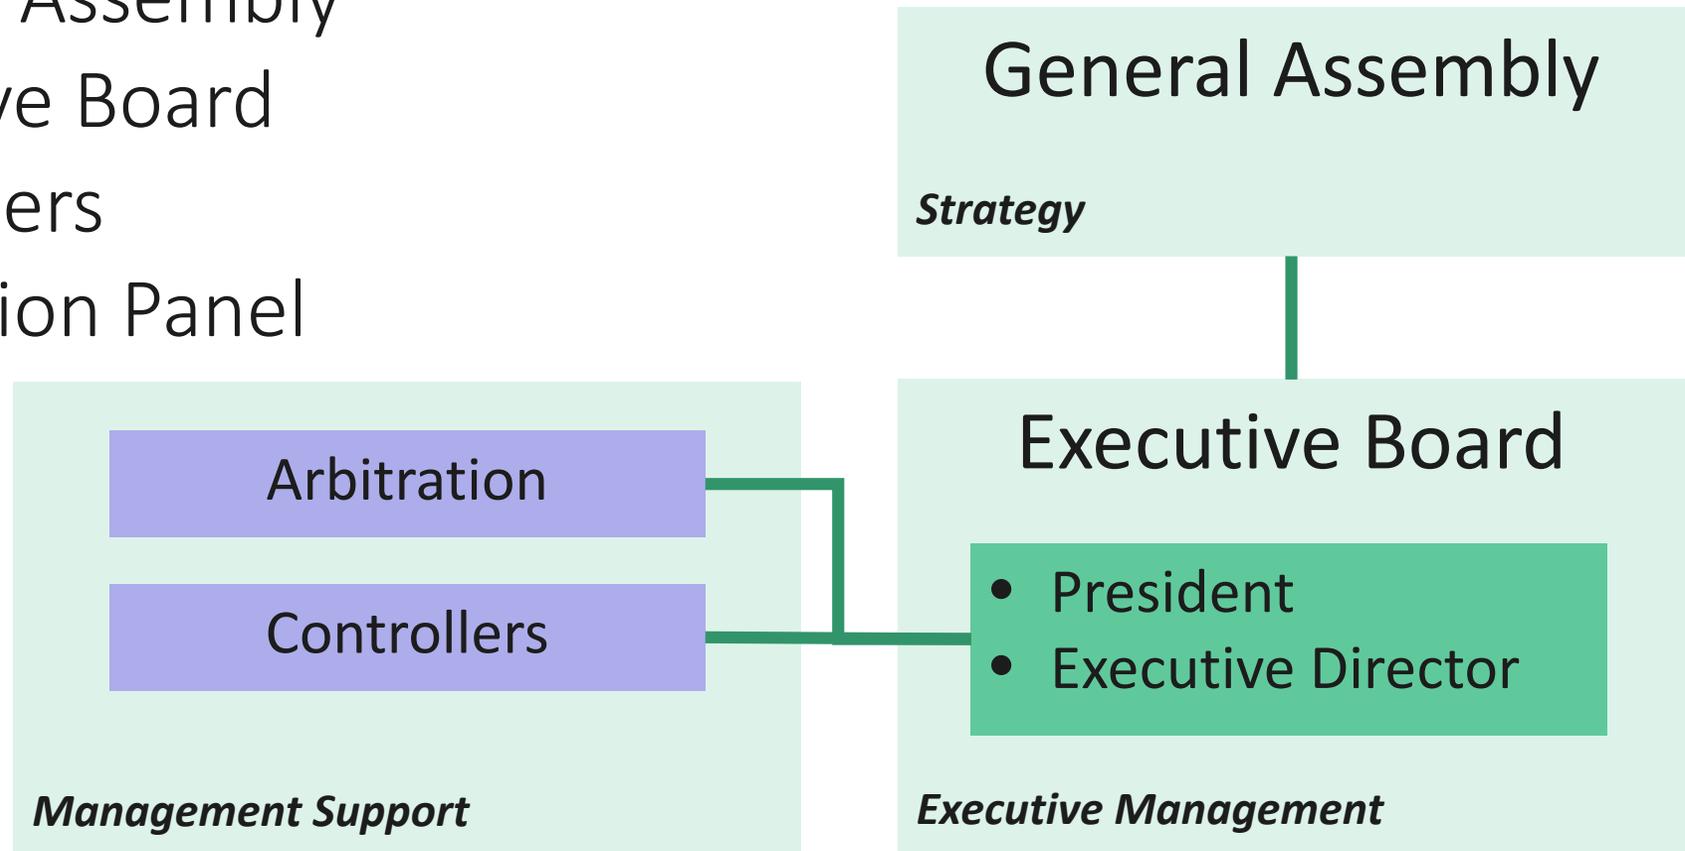

TMO: Institutions

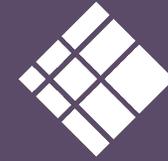

Time
Machine

Association Institutions:

- General Assembly
- Executive Board
- Controllers
- Arbitration Panel

TMO Institutions

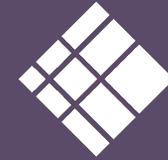

Time
Machine

- General Assembly
 - **Annual** assembly of members
 - **Approval** of **professional** and **financial policy** and **reports** from Executive Board
 - **Election** of institutional bodies

TMO: Institutions

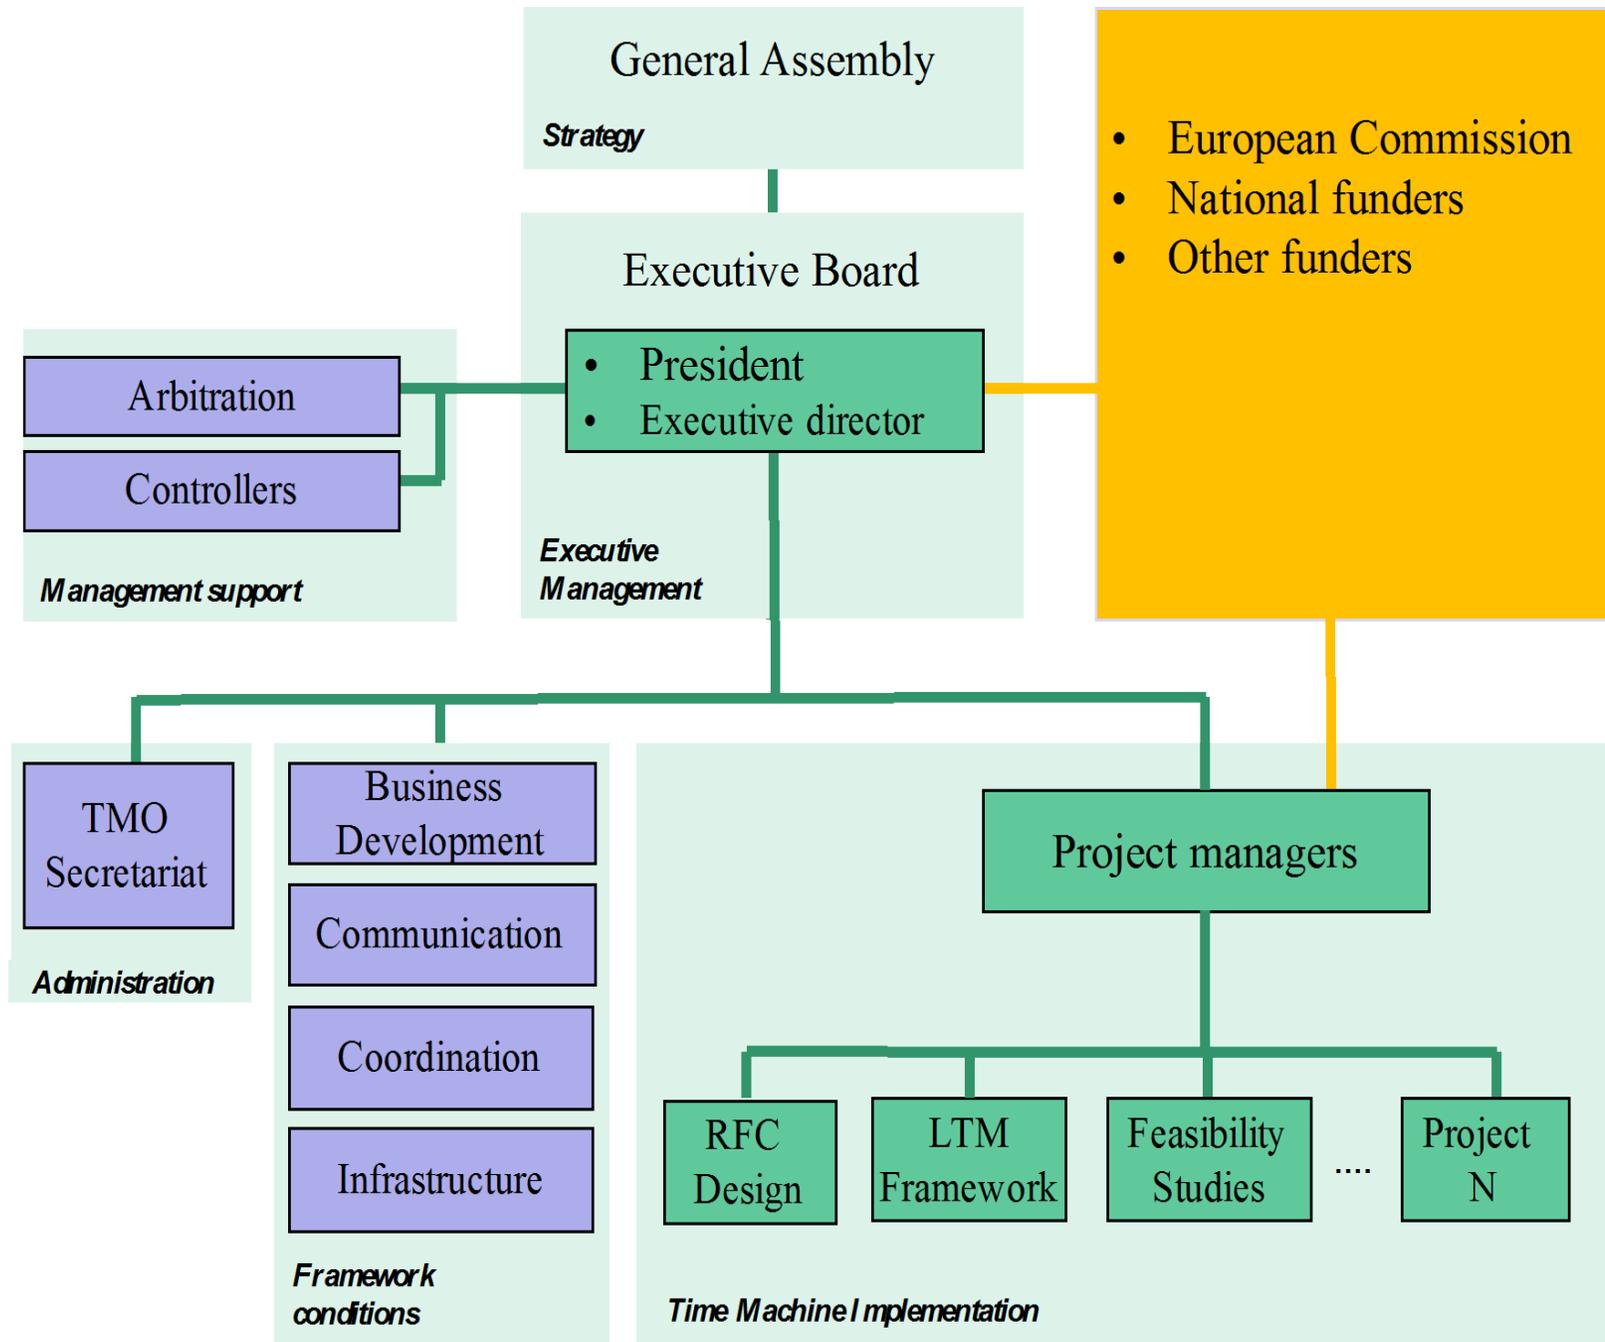

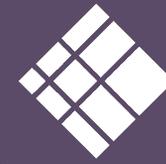

Time
Machine

• Executive Board

- **Voluntary**, not remunerated
- **Founding members only**, have the right to coopt regular members
- Term = **4 years**
- Annual accounts and reports
- Appointment of **Exec. Director** responsible for operative part of the Association
- Particular obligations of board members

Valérie Couët-Brunet
Deputy Treasurer TMO

- **Executive Board** (10),
Operational Team (10)
Ambassadors (50+).
- Headquartered in **Vienna** (AT),
additional offices in Lausanne,
Amsterdam, Budapest and Jena.
- Network of over **50 Time
Machine Ambassadors** spanned
across **Europe**, firmly based on
the European continent.

Coordination

Conclusions

Time
Machine

- Nine Years of development from Idea to Organization
- Primary motivation for members: Funding
- Legal form: Association
- 600+ members
- Communication & Expert Database, Service
- Common Goal: Digitization, Analysis, and Information Modelling (and Funding)
